

Subject: Qualification for Modified FSVP Compliance Requirements

I am writing on behalf of TrueTech Inc to officially declare our qualification for the modified Foreign Supplier Verification Program (FSVP) compliance requirements, in accordance with the regulations set forth by the U.S. Food and Drug Administration (FDA).

TrueTech Inc was established in the year 2022. In our inaugural year, our sales revenue has been below USD1 million. As a result of this condition, we meet the eligibility criteria for small importers as outlined by the FDA's FSVP regulations. These regulations provide for modified compliance requirements tailored to businesses of our scale.

We are committed to upholding the safety and quality of the food products we import, and we understand the significance of adhering to FSVP regulations. TrueTech Inc will continue to implement robust measures to ensure that the food products we import are safe for consumption by our consumers.

Zhiwen Teh
