Notes

- "Cacao Almonds" = cacao **beans** (Portuguese *amêndoas de cacau*), NOT tree nuts/almonds. Lines 0004 and 0009 are cocoa beans; do not file as allergens/nuts.
- FDA product codes are distinct from Brazilian NCM codes. NCM is the customs/tax classification; the FDA product code is the PNSI artifact-classification.
- Codes 34BGN04 / 34BDN05 / 34YGO99 carry filed-PN precedent; 34AHN99 / 34BHN05 / 34BHN04 / 34BHN03 were endorsed by the governor on 2026-10-07 for this filing.
