Notes

- "Cacao Almonds" = cacao **beans** (Portuguese amendoas de cacau), NOT tree nuts/almonds. Lines 0004 and 0009 are cocoa beans; do not file as allergens/nuts.
- FDA product codes are distinct from Brazilian NCM codes. NCM is the customs/tax classification; the FDA product code is the PNSI artifact-classification.
- The per-article **Confirmation Number** is the FDA-issued receipt for each food article within the envelope; quote it when CBP/FDA ask about a specific line.
- Durable, view-anytime copy of this mapping: FDA_PRODUCT_CODES.md at the repository root.
